B.E

Female

Examination	University	Institute	Year	CGPA/%
Graduation	GTU(CE)	SETI Ahmedabad	2023-26	7.59
Diploma	GTU(CE)	GPG Ahmedabad	2020-23	8.81
SSC	GSEB	SBEM, Bardoli	2020	69.17

PROJECTS

- **HitAlert!- IoT-based Smart Accident Detection & Alert System** *(Jul'22-Apr'23)*
 - Designed IoT system to detect **accidents, collisions, gas leaks, fire hazards, and alcohol influence** using Arduino, NodeMCU & sensors.
 - Integrated **real-time alerts** via APIs, live logging, and **remote monitoring through Flutter and 000webhost**.
 - Awarded **SSIP recognition & funding** for innovative road safety solutions.
- **Health Care Activity Monitor in Tableau** *(Jun'25)*
 - Designed an interactive **Tableau dashboard** to track, monitor, and visualize healthcare activity metrics.
 - Performed data cleaning, structuring, and visual analysis to generate meaningful insights.
 - Applied analytical thinking to convert raw datasets into a clear, decision-making tool.

TECHNICAL SKILLS

- **Testing & QA:** Manual Testing, Test Case Design, Bug Reporting, SDLC & STLC, API Testing (Postman)
- **Programming & Backend:** Java, Python, PHP, OOP Concepts , .Net, Angular
- **Web Development:** HTML, CSS, JSP, Servlets
- **Databases:** MySQL, SQL
- **Data Analytics:** Data Cleaning, Tableau, Real-time Reporting, Power BI, MS Excel, MS Word, MS PowerPoint
- **IoT & Tools:** Arduino, NodeMCU, Flutter, VS Code, GitHub, REST APIs (Basic)

WORK EXPERIENCE & INTERNSHIPS

- **Industrial Trainee — Flutter & IoT Development | InfoLabz IT Services Pvt. Ltd., Ahmedabad** *(July'22-Apr'23)*
 - Completed industrial training in cross-platform mobile app development and IoT systems.
 - Developed intuitive mobile apps using Dart & Flutter, integrated with live databases and web services.
 - Designed, tested, and debugged IoT prototypes involving sensors, circuits, and backend data processing.
 - Ensured system reliability through database validation and functional testing.
 - Gained strong expertise in full-stack development, logical thinking, and problem-solving.
- **CSRB0X| Data Analytics Intern** *(July'25)*
 - Explored and analyzed real-time healthcare datasets, deriving meaningful insights for decision-making.
 - Applied data cleaning, preprocessing, and basics of exploratory data analysis (EDA) to improve dataset quality.
 - Designed and delivered interactive Tableau dashboards, presenting complex data in a clear and actionable way.
 - Collaborated in industry-led problem-solving sessions, strengthening analytical thinking and practical application skills.

ACHIEVEMENTS

- 1st Rank – SSIP Ideation Competition (2022) for proposing “HitAlert!”
- SSIP Funding received for IoT-based Accident Alert System
- Hackathon Participant – Azadi ka Amrit Mahotsav (IITRAM, 2022)
- 1st Rank – Tech Thrive, Technosav 2023
- 3rd Rank – Techno Sarita 2023
- 2nd Rank in Volleyball — GTU Sports Spirit 2024, Ahmedabad (Zonal & Inter-Zonal Competition).

ACTIVITIES

- PR Member of **Indian Society for Technical Education (ISTE)**
- Active contributor in college community activities for **2 years**

AREAS OF INTEREST

- Software Testing & Quality Assurance
- Full Stack Developer
- Data Analytics & Business Intelligence
- Database Management & API Development
- Software Development

HOBBIES

- Listening to Music
- Volleyball
- Cricket
- Traveling
